If needed I will have a Skype meeting with you to make sure I am the right photographer for you before we proceed with the booking.

My second shooter is Helen Spalding and has assisted me on numerous shoots. This helps us get different angles that one photographer can not cover alone. And if she is available she will join me free of charge to you.

Your time starts running as soon as we arrive at the allocated venue.

Ensure you are ready and waiting at the allocated venue on time and that you have your cellular phone with you.

Please make sure to provide us with accurate GPS coordinates or GPS accessible address or a drop pin (location) on whatsapp.

Our accommodation and travel charge for destination weddings will be quoted on separately. If a wedding is more than 2,5 hours drive, we will book accommodation near the wedding for our safety driving home after the wedding.

Please remember that very dark reception areas will need us to hire additional constant lighting for our cameras to be able to capture the spacial moments.

Your reception will be discussed on our Skype Meeting.

Remember to relax and enjoy yourself.

Please make sure the bridal party is ready at least 30 minutes before they are to leave for the ceremony. This allows for additional artistic shots. Keep in mind if bride and groom are getting ready at different venues it takes up additional shooting time to travel between venues for shooting.

Guests are always eager to snap pictures with their phones but please have the priest / pastor etc. announce that guests are not to take any pictures during the ceremony or while you walk out of the church.

Over eager guests get in the way of our line of shooting which results in us missing those all-important shots you are hoping for.

Where possible I like to meet with my clients at the allocated venues to scout for suitable shooting spots and to see the lighting situation in the reception hall. If we do meet up your invoice will reflect this in traveling amount.

Please provide a safe spot for us to charge our back up batteries

A great deal of effort is involved in the final preparation of your images, please be patient and allow 10 - 12 weeks for the post-production of your photos. Albums may also take an additional 14 working days for printing. Should any work be required before a set date, the photographer is to be notified upon booking. A 100% rush fee will apply if post product is needed before 10 weeks.

I will send you "sneak peaks" within a week of your shoot to settle your curiosity.

All post processing is included in the cost of your shoot, this includes basic editing such as cropping, colour and contrast adjustments, as well as more advanced retouching, including the removal of small marks and objects where possible. Thereafter, additional editing and design will be quoted for separately.

Once your images are ready, you will receive high-resolution images (suitable for printing) via WeTransfer.

Please remember to download them to a PC as they are too large for your phone and remember to save them to your PC as the download link will expire in a week.

They may not be duplicated or given to other parties for any purpose without permission from the photographer.

Layout and image selection will be done by the photographer for the standard Coffee Table books.

The album, along with your USB or any ad ons that need to be posted can be sent by a courier of your choice and quoted on accordingly.
